ABOUT ME

Ambitious and inquisitive professional with strengths in coding, frontend development, and event organization. Known for excellent interpersonal skills and an open-minded approach. Enthusiastic about challenges and keen on contributing to diverse projects.

PROFESSIONAL EXPERIENCE

VICE CHAIRPERSON | 07/2023 - Current

ACM-DBIT - Mumbai

- Responsible for leading and overseeing the activities and decisions of ACM-DBIT, ensuring effective co-ordination between the team.
- Established clear and effective policies for standardisation across different areas of operations.
- Supervised executive-level support staff and monitored workflow to maintain competence and productivity, meeting goals and objectives

SOCIAL MEDIA MANAGER | 08/2022 - 07/2023

ACM-DBIT - Mumbai

- Used social media analytics tools by evaluating performance and adjusting content strategy to meet campaign objectives.
- Conducted multi-channel marketing across different social media platforms using variety of formats.
- Researched current social media trends and audience preferences for maximum post performance.
- Produced high-quality social content, ensuring alignment with brand voice and messaging.

PROJECTS

1. RedLife: Blood Bank Management System

- Developed a centralized web application facilitating seamless interaction among donors, blood banks, and hospitals.
- Utilized HTML, CSS, and JS for the frontend, while implementing the backend with Node.js, Express.js, and MySQL.
- Project Repository: <https://github.com/jessjohn1539/Redlife>

2. UniPay: Virtual Payment System

- Developed an Android application that serves as a platform for users to engage in transactions using virtual currency within a defined environment.
- Utilized Android Studio and Flutter for the frontend, while implementing the backend cloud computing using Firebase.
- Project Repository: <https://github.com/Juiceyyyy/UniPay>
